

PROGRAM PARTNER PASS

GTCbio recently introduced a “Program Partner Pass” to increase the value for sponsors at GTCbio’s small but focused conferences. The Program Partner Pass is an *annual pass* meant to create the most value by increasing a company/institute participation at multiple GTCbio conferences over a period of 12-months (on a rolling basis). We believe this will help build long-term relationships that will be a valuable resource in providing continuous feedback loop to improve the return-on-investment (ROI) for the Partner and vice versa.

What you get with a Program Partner Pass:

- Provides one free registration to all GTCbio conferences in the 12-month period from sign-up date
- Can be applied to any employee of the company (can be rotated between different employees)
- Will work with you to bring up to 10 people of your choice who you would like to see at each conference
- Company representative can participate in the conference Advisory Board and contribute in developing the conference
- Company will be listed as a Program Partner for the conferences of interest
- Company logo will be included on the conference web pages and other conference materials
- Can purchase additional delegate registrations at a Preferred Colleague Discount (35% off)
- Can purchase additional sponsorship packages at a Preferred Sponsor Discount (25% off)
- \$8995 for a company; \$4495 for an academic or government institute

Please visit www.gtcbio.com often to see the exciting events we have planned for the future.

We invite you to join us as a Program Partner and look forward to working with you as we “Drive the Future of Science”. Please contact us at ProgramPartner@gtcbio.com or call us at (626) 256-6405 for more information.
